

# Full Stack Developer with AI Integration [VACANCY]

---

**Level:** Junior/Middle

**Location:** Remote (the company is based in **Hong Kong**, but works remotely from all over the world)

**Contract:** Part time (5-10 hours of availability per week to start)

## Who are we?

**Brilliant IT** is a Ukrainian company with 12 years of market experience. Since 2019, we have specialized in recruiting and outstaffing, connecting top talent with exciting opportunities in innovative fields like Artificial Intelligence, cryptography, cryptocurrency, and high-load systems. Our team is dedicated to matching skilled professionals with projects that challenge and inspire, offering a platform to grow and make a significant impact in the tech industry. Our clients come from all over the world, not just from Ukraine or Europe. Currently, we're seeking a **Full Stack Developer with AI Integration**.

*Note: Due to confidentiality agreements with our client, the company name and additional details will be disclosed upon further discussion.*

## Key Responsibilities:

- Develop and maintain web applications using Python, Node.js, and React.
- Integrate open AI APIs (e.g., OpenAI, Anthropic).
- Work with Pinecone vector database and traditional MongoDB.
- Optimize and configure AI models for specific solutions.
- Collaborate with the team to develop innovative solutions.

## Candidate Requirements:

- Experience with full-stack development: Python, Node.js, React.
- Experience integrating AI APIs or a strong desire to learn and grow in this area.
- Understanding of key AI concepts such as tokens, context size, etc.
- Proficiency with Pinecone and MongoDB databases.
- Experience with other databases is a plus.
- Good understanding of software development principles and methodologies.

## We offer:

- Flexible work schedules and generous vacation time.
- Opportunities for travel and the chance to work on interesting projects that align with your passions.
- A supportive and understanding team environment.
- A focus on quality of life, with benefits that prioritize work-life balance over higher financial compensation.

We are looking for motivated specialists ready to grow with us!
